Even within Europe, implementation has varied widely from country to country. On the contrary, when employees burnout, they manifest signs of exhaustion, lower energy and become more cynical, less involved, and less productive at work Maslach and Leiter, ; Wong and Tay, This article has been cited by other articles in PMC. Wie bewerten Sie den Artikel? Controllability and predictability in acquired motivation.

Landau examined the relationship of gender to managers' ratings of promotion. At the same time, affirmative action policies and processes have been challenged in courts and have caused controversy in educational establishments, highlighting the fact that these practices can have negative consequences.
