In retrospect, I should have given up with my one-week-per-month instructor a lot sooner. The Grob is a fine plane, but it is a bit underpowered and you spend a long time diving for speed, then climbing for altitude. Youbet. Reviews User-contributed reviews Add a review and share your thoughts with other readers. And later still I discovered that as long as you are very delicate on the pedals, it's just as easy in the Citabria. Really I think it's just all about managing the angle of attack, but that means more power Taming the Taildragger well, so whatever the reason, it feels very different.

StickandRuddertoldmetwothings:whenthingsfeelsquirrelyreduceangled that was done, we started to work on landings.
