My only experience is with equities, but yes forex is both highly leveraged and poorly regulated. Direct connection services give HFT participants earlier access to trading data than conventional investors, who can only get their data through value-added services providers, such as the Consolidated Tape Association CTA which is related to the NYSE.

Markettimingalgorithmswilltypicallyusetechanicalindicatorssuchasmc
In the future, HFT will gain the opportunity to develop further in China only as more assets come to market, and as trading restrictions and costs diminish. Another example occurred after the Facebook IPO problem.
