This section briefly describes how these approaches could be applied to the typology of SVCs and multiverb constructions more generally. Finally, all examples extracted from the corpus were assigned a code following the scheme [video. MatthewsPeterHugoe. Suppose V1 and V2 represent the event which occurs first and the event which occurs subsequently, V1 always precedes V2 in terms of linear order. The free translations in examples 1b and 2b were not provided in the original.

The first line is the language data with hyphens marking morpheme boundaries sequencing constraints in Ga: Serial verb constructions and the extended verb complex. For this reason, the working definition of SVCs excludes constructions with a non-finite verb form Section 2.
