To cite another topical example, the social media service Facebook recently attracted criticism for allowing users to post graphic footage of beheadings, while prohibiting photos of videos containing nudity including images of breastfeeding in which the baby does not totally obscure the nipple or in which the non-nursing breast is in view; see Clark, Behaviour, Critical Intersections: Religion and Society The upshot of all this work is that evolved agency-detection mechanisms may serve to deliver intuitions about observing agents and to regulate our behavior in the presence of those agents. Such a discussion might lead in a number of directions—acceptable gender roles Ratings and Book Reviews 0 0 star ratings 0 reviews. Recall the analogy drawn earlier between the properties of a hands and gloves, and b evolved cognitive systems and explicit cultural representations. The extended religious phenotype and the adaptive coupling of ritual and belief
