Conservation Land Management CLM is a quarterly magazine that is widely regarded as essential reading for all who are involved in land management for nature conservation, across the British Isles. Others have argued that capitalism, which relies on the constant growth and accumulation of capital, could be reformed into a steady-state economy – an economy that has ceased to grow.

It is not a system for expanding choice but for controlling it in the interests of the few. Some of my thoughts were set out in this review I did for the current issue of the *International Socialism Journal*.

Degradation under Capitalism. The state of the ozone layer, which regulates the ultraviolet radiation from the sun hitting the Earth, was the only good news.

More Info. Capitalism in Wonderland. But given the length of the work, this can be readily accepted as being material for further research.
